

Rolling Tree Planters, Prairie Style

The rolling tree planter, prairie style comes fully assembled and installed with locking wheels, thick liners and are plumbed. They are great for growing any tree that requires room and growth needs. Excellent for: transplanted trees or plant new nursery stock. Easily allows 15 gallon or larger rootball depending on planter size. After the tree has been planted, there is still room to plant additional plants.. One can even use the entire planter to plant tomatoes, peppers, deep rooting vegetables (carrots, beets, parsnips), herbs, and more.... You are free to elect how and what your planter will be used. Shallowest planter offers soil depth of 16.5 inches. Cube sized from 27 x 27" up to 48 x 48;" Heights from 25 to 39 inches, as pictured.

Many custom options are available: they can be ordered in custom sizes and heights, with optional pedestals for higher garden surfaces, irrigation options, and 11 stain and oil finishes.

Our fully assembled planters are built commercial grade tough to endure many years of continuous gardening with any soil of your choosing. Let your plants follow the sun, yearly, montly, weekly, daily or be moved out of the way when you need to socialize.
